Cybersecurity Board Risk - One-page Board Briefing

WHY IT MATTERS

Cyber incidents now affect operations, insurance, legal exposure, and reputation - board-level consequences.

PRIMARY RISKS

- Overreliance on tools vs readiness
- Lack of operational continuity planning
- Misalignment with cyber insurance requirements
- Metrics that obscure real exposure

BOARD QUESTIONS TO ASK

- What matters most if compromised?
- How long could we operate during disruption?
- Who decides during an incident?
- Are we insurable and aligned with coverage terms?
- What metrics reflect readiness, not activity?

BOARD TAKEAWAY

Cybersecurity governance is not about eliminating risk. It is about knowing, prioritizing, and managing it with discipline.
